

**REMARKS**

The Examiner is thanked for the allowance of claims 22-27, 29-34, 41-16 and 59-68. This Amendment and the accompanying Request for Continued Examination are being filed to present additional claims to which Applicant is submitted to be entitled. This Amendment also reflects the Examiner's Amendment in the Notice of Allowability dated July 26, 2007.

For reasons presented in Applicant's previous responses, it is respectfully submitted that a color palette comprising a first contiguous grouping of non web-safe chromatic colors and a second contiguous group of web-safe chromatic colors, including blends created from the web-safe chromatic colors, is neither disclosed nor suggested by the prior art of record, whether or not the palette also contains another grouping of achromatic colors. New claims 70-75 are presented to encompass this distinctive aspect of the invention, and are submitted to be allowable for at least some of the same reasons that claims 59-68 are allowable.

New claims 76-84 are directed to apparatus that implements the distinctive features of the invention, namely a display device, and are submitted to be patentable for the same reasons as claims 70-75.

It is respectfully submitted that all pending claims are allowable, and a notice to that effect is respectfully solicited.

Respectfully submitted,

BUCHANAN INGERSOLL & ROONEY PC

Date: October 26, 2007
